

## Financing and Tax Considerations for Growth

July 28, 2011

Please join us on July 28, 2011 for an event focused on the tax and financing considerations for growing businesses.

This event will focus on tax issues such as business formation, multi-jurisdictional operations, mergers and acquisitions, and net operating loss preservation. In addition, we will discuss the current environment for capital raising, who is getting capital and why, and best strategies for positioning your company for funding. Awareness of these considerations can have a significant impact on a company's success.

This presentation is a "must attend" for financial officers or business owners of companies focused on growth, and for advisors consulting with such companies.
